TO:

Now that the Management Committee has approved the History Staff's new program, we shall be concentrating exclusively on major activities. As a corollary, we shall have no further responsibility for the component histories.

Could you please give me a list of work currently under way in DDI and a status report on each with an estimated completion date. Then we should get together and see where we go from here. I am under an injunction to terminate the component history program no later than 30 June 1974.

WALTER ELDER
Chief, CIA History Staff
